High-Performance Certified Ergonomic

- **Leatherette** – urine and blood resistant (DIN 53160) – ideal for medical and lab use
- **Soft-PUR Integral Foam** - thermo-sensitive technology for maximum comfort in any environment
- **GMP** – covered seat mechanism with premium chrome-plated and polished metal components
- **Cleanroom Certified** – tested by the Fraunhofer Institute according to DIN EN ISO 14644-1
- **ESD** – also available in ESD (PUR only in black)

Designed for Lab & Cleanroom

Surfaces and materials are specifically engineered for use in laboratories and cleanrooms to minimize particle emission, ensure easy cleaning, and provide resistance to common disinfectants and cleaning agents.

High-quality plastics, synthetic leathers, and PUR surfaces meeting strict hygiene requirements, offer long-lasting durability, and support safe, compliant workflows under controlled conditions.

Customized: Tailored solutions for laboratory and cleanroom environments.

Create your own solution

Whether it's the color or armrests, step-up rails or glides, castors, bases, or surfaces – all components can be customized using our online configurator.

The result: work chairs that perfectly suit your specific needs – functional, ergonomic and perfectly matched to your workspace.
